

How to... Source auction and raffle prizes

Plan ahead

- 🐻 Get started as soon as possible, leaving yourself plenty of time.
- 🐻 Get as much donated as possible to maximise proceeds to Perth Children's Hospital Foundation.
- 🐻 Think of what prizes will best suit your guests and approach local businesses for support.
- 🐻 Consider the value of prizes and what you will charge for raffle tickets. You may need a reserve on some auction items – let the auctioneer know in advance.

Use your contacts

- 🐻 Think about friends and family who may work in a local shop or business. They will be a good starting point and may have useful networks of their own. You can offer to use their logo on your flyer or event program.
- 🐻 Contact local sports clubs – since they might be able to give you some signed memorabilia.
- 🐻 Perth Children's Hospital Foundation can provide you with an 'ask' letter for local business support. All goods donated are eligible for a goods in kind tax receipt.

Think creatively

- 🐻 Money-can't-buy experiences are unique and are sure to bring in the big bucks. Do you know a chef or restaurant that would offer an exclusive Chef's Table in the kitchen for example?
- 🐻 If you manage to get a few small items, group them together to make an amazing package. A spa treatment followed by a champagne lunch out.
- 🐻 If you are able to source a prize of high value why not consider a limited number of raffle tickets at a higher price point. This could run alongside your normal raffle.

Thank you for
making it better
